

World TB Day

Mini-TB Symposium

Advances in TB Research in Singapore

20th March 2024, 11:45 am - 5:30 pm

Venue – Codon A & B rooms, Matrix, Biopolis

Tuberculosis (TB) kills one person every 30 seconds on this planet. Development of improved drugs, diagnostics and vaccines are central to the WHO END-TB strategy. On World TB Day, we join to reiterate our commitment to continue the fight against TB.
